I have been a fan of Microsoft and Bill Gates through all of this mess. We as Americans should be grateful for companies and men like Mr. Gates. If Microsoft hadn't developed the technology some other company in another nation would have. All these companies crying and complaining about Microsoft where were they in the early days? That's right let someone else do the research and development and then cry like a baby that you got screwed. In my opinion Microsoft didn't do anything that someone else could have done if they had been willing to take the Bull By The Horns spend some money and take a risk. I have no ill feelings for Microsoft whatsoever and feel THEY if anyone has been treated unfairly and unjust.
